KLAX

Sintered Porcelain Surfaces

A high-angle photograph of a modern kitchen and dining area. The kitchen features a long island with a white, marble-veined porcelain countertop. On the island, there is a double-basin stainless steel sink with a modern faucet, a rectangular stainless steel cooktop, and a few decorative vases. The cabinetry is a light blue-grey color. In the foreground, a white rectangular dining table with a matching marble-veined top is set with a small potted plant and two dark vases. Two black modern chairs are tucked under the table. The floor is made of light-colored wood-look planks. In the background, a large window or glass door opens up to a wooden deck with some greenery. The overall aesthetic is clean, minimalist, and luxurious.

About us

Brand introduction

KLAX - state of the art sintered porcelain surfaces, is a global innovative high aesthetic brand. Focusing on advanced technology and elegant design in the ceramic industry.

Using all natural materials, with digital structured 3.0 technology, creates natural textures and designs, perfectly integrating the beauty of Italian classic craftsmanship, refined with our technical porcelain expertise.

Our research and development department can also customize designs specific to each client's needs and specifications.

KLAX in collaboration with world leader in design, Tecnografica, has produced a range of luxury designs incorporating the elegance and beauty of natural stone that has placed KLAX at the forefront of technical porcelain design innovation.

KLAX International production base is at the forefront of advanced technological development in manufacturing sintered processes including: Digitally Structured 3.0 technology. Nano Digital Technology. Digital Structure Crystal 2.0 Technology. Semi-matt Technology. Intelligent Material Distributing Technology and many more specialized advancements within the industry.

Product Introduction

Sintered porcelain is a revolutionary material individualized into a collection of expressive designs to accommodate your bespoke ideas and inspirations. KLAX explores the potential of your living spaces with modern kitchen and bathroom designs also incorporating wall and floor surfaces, both commercial and residential.

The unique properties of this technology will give you the ultimate kitchen countertop with heat resistance up to 1280° C. The highest scratch resistance on the market, UV resistant and most importantly, stain resistant.

Advantages

	Natural beauty design
	Fire resistance : Class A1
	High temperature resistance : 1280°C
	Hardness : Mohs 6
	Scratch resistant : 2 times the resistance of traditional tiles
	Easy to clean : 5-level stain-resistant surface treatment
	Difficult to penetrate : water absorption 0,01%
	Anti-slip on demand
	Anti-freeze : - 80°C
	Anti bacterial : 99,99% antibacterial
	Corrosion resistance : GHA
	Environmental protection and health : no formaldehyde and no radiation
